

FAQs: Concurrent Enrollment

WHAT IS CONCURRENT ENROLLMENT?

Concurrent Enrollment offers you an opportunity to get a jump-start in college by taking courses that apply to a two-year and four-year degree while completing your high school education. Concurrent Enrollment gives students an opportunity to take college courses with other college students with multiple deliver options such as in person, hybrid or online. This opportunity gives students full exposure to what college life will be like after high school graduation.

WHAT IS THE DIFFERENCE BETWEEN TAKING COURSES THROUGH DUAL ENROLLMENT AND THE CONCURRENT PROGRAM?

Dual enrollment is when students are taking college-level courses at their high school with fellow high school students. The high school instructor teaches the course.

Concurrent enrollment gives students the opportunity to take the course with multiple deliver options such as in person, hybrid or online. Students will receive the entire experience of taking a college course, preparing them even more for their college career after high school.

HOW MUCH DOES IT COST?

Tuition is more affordable at a community college than at a public or private College or University. View the Tuition fee schedule. \$15 registration fee required. Some courses, such as labs, require additional fees. Books are purchased separately.

WHAT IF I CHANGE MY MIND?

It is your responsibility, not the instructor's, to officially withdraw from CGCC. If you withdraw after the 100% refund date you will still be responsible for paying your tuition. NOTE: Notifying your instructor that you no longer want to take the course is not officially withdrawing from the course. Please go to your Student Center <https://sisprodpub.maricopa.edu/psp/PMC/P4J/?cmd=login&languageCd=ENG> Finances then Account Inquiry for drop date information.

*In-county tuition subject to changes.
